DETAILED ACTION

1. According to the "Amendment" received February 22, 2006, the specification has been amended; claims 1, 2, 5, 14, 23 and 28 have been amended.

Response to Arguments

2. Applicant's Remarks received February 22, 2006 have been fully considered and are persuasive.

Allowable Subject Matter

3. Claims 1-29 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the prior art fails to disclose or make obvious a time-of-flight mass spectrometer comprising:

- an elongated sealed vacuum chamber having at least two inlet pods for admission of at least two flows of charged particles simultaneously and independently of each other;
- electrostatic field generation means for generating an electrostatic field for causing charged particles of said at least two flows of charged particles to fly along different curvilinear trajectories in a direct path from the input side towards an opposite side of the vacuum chamber; and in a return path from said opposite side to said input side;
- a charged particle detector means, located in the vicinity of the inlet ports; means for detecting times of collisions of said charged particles with said charged particle detector means and
- means for determining the time of flight of said charged particles independently for each of the at least two flows.

Claims 2-29 are allowed by virtue of their dependency on claim 1.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
